In addition to this, I have a list of expected civil judicial conclusions that DOJ and I work from, and also a chart of expected administrative case outputs by program area that ORC and programs jointly maintain.

Subject: Priority Templates

Please see the attached planning templates. These will be discussed at the BOD meeting on Friday. Because these are still in draft, we ask that the templates be kept close and not shared broadly. The OPA template will follow shortly. OPA has noted that they plan to look at what the divisions/offices are proposing before finalizing the OPA template.

We plan to set up a share drive with controlled access to maintain these files later this week. Once it is in place, I will send a link.

Please let me know if you have any questions. Thanks!
